

Dear Sir or Madam,

We would like to invite you to the best innovation school of all times! Smart-Up Lab is an innovative and solution-driven programme for everyone who is interested in healthcare and changing the world. We will provide you with the best tools to help you develop your unique ideas.

It is the 5th edition of EIT Health Smart-Up Lab programme organized parallelly in Łódź (Poland), Naples (Italy) and Tartu (Estonia).

What's in it for you?

- High level workshops with qualified trainers,
- Constant networking and creating business contacts opportunities,
- Chances to pitch in front of the investors,
- individual certificate after every workshop,
- Possibility to develop your idea and creating a prototype of it,
- For the best teams- an opportunity to take part in Final Event.

You do not have to own your idea, or a team. The only thing you need is an open mindset and eagerness to change the world for the better with innovative healthcare solution.

The autumn edition of the programme will be provided in English.

Payment for the participation is 100 PLN, the majority of programme costs is covered by the EIT Health.

Don't miss a chance to become a master of innovation!
