ABOUT US

Tricentis is a software company that specializes in helping large enterprises to optimize, manage, and automate the testing of their critical applications. Established in 2008, Tricentis has expanded rapidly, establishing offices in Europe, US, Australia, and building a loyal customer base of brand names such as BMW, Deutsche Bank, HBO, Austrian Airlines, Siemens, etc. Gartner recognizes Tricentis as a **Leader** in their 2015 Magic Quadrant for Software Test Automation. Forrester calls Tricentis **a Strong Performer** in Functional Automation Tools, with Model-based Test Automation as their standout feature.

Tricentis is planning to establish 1-2 agile development teams in Lodz / Poland. Take this great opportunity to be part of this pioneering team in Poland.

Eager to work in a fast growing, innovative and highly motivated company where each individual contribution to the company's business counts? Go ahead and apply! We look forward to receiving your application.
